

Our services are customized to fit your needs. We can act as your outsourced litigation support department or work as you need us on a case-by-case, or incident-by-incident basis.

We specialize in experienced end-to-end litigation support, customized to fit your needs

Did you know that we offer a Best Practices CLE Workshop?

Contact your local representative to learn more.

The Litigation Support team at U.S. Legal Support provides electronic discovery and digital forensic services. Our innovative and comprehensive litigation solutions by experienced, certified consultants and eDiscovery software solutions help our clients manage the entire litigation life cycle from early case assessment and collection, through document review and trial presentation.

All of our project managers spent a part of their careers as litigation support managers in law firms. We know your world, your issues and we can provide cost-competitive solutions.

If your matter requires digital forensics, we have experienced testifying experts on staff. Forensic collections, triage, analysis and reports.

Early Case Assessment, Litigation Support & eDiscovery Services

We have counseled some of the top firms in the world on electronic document discovery. This knowledge has led us to examine tools and procedures that start review preparation earlier and earlier in the process.

Services Include:

- 26(f) consulting and eDiscovery expert services
- Early case assessment tools
- Forensic collection and preservation
- Forensic analysis, triage, reporting and expert testimony
- eDiscovery processing and consulting
- Hosted document review
- Document production
- Document scanning, coding, OCR and conversion
- Trial presentation
