

## **We understand the pressure and last minute nature of litigation**

- We gather your evidence for effective presentation
- We assist in determining the best way to present your evidence
- We develop demonstratives and animations to help “Tell Your Story”
- Our skilled technicians assist with presenting your case at trial

## **We Support Technology in the Courtroom and the War Room**

- Our specialists visit the courtroom before trial to determine the best configuration for presentation equipment
- We work with the court clerk to ensure minimal intrusion to the courtroom
- We provide equipment rental and installation services for the courtroom and war room, including projectors, screens, monitors, plasma televisions, switches, audio equipment, printers and SmartBoards
- We provide internet access, remote RealTime and streaming video services

The Trial Services Division of U.S. Legal Support provides trial preparation and presentation staff at trials, arbitrations and hearings throughout the United States and around the world. Our role is to work with your legal team to plan, prepare and present your case effectively at trial.

## **Our experienced specialists work with your legal team to plan and present your case effectively at trial**

- We go to trial more frequently than most attorneys so we know what works and doesn't work in the courtroom
- Our project management team provides support on-site and off, from the many U.S. Legal Support offices located throughout the United States
- Our industry experience is extensive in many different jurisdictions and types of cases, including intellectual property, construction defect, environmental, insurance, employment, divorce, personal injury, patent, contract, securities issues, white collar and criminal defense

## **We create audio, video and graphics**

- Deposition digitizing and synchronizing
- Video and audio clips
- Day in the life videos
- Convert simple boards into 2D and 3D animations
- Timelines
