

Your deposition, at your fingertips.

Scheduling conflict. Travel restrictions. Under the weather. If any or all participants cannot physically attend your deposition, keep your discovery schedule moving forward with a complete remote deposition.

Using our video conferencing technology and your webcam, RemoteDepo™ allows everyone to participate in the deposition remotely and interact as if they were in the same room. Communicate in realtime, observe witness body language and seamlessly facilitate questioning. Your deposition will proceed as normal, including the delivery of the certified transcript.

Join from one of our 12,000+ on-demand offices nationwide or from the comfort of your own home or office.

- ⌕ Secure and dedicated line
- ⌕ Unlimited participants
- ⌕ Remote or local reporter for the entirety of your proceeding
- ⌕ Technical support for the duration of your deposition

Reliable & Cost Effective Remote Depositions

RemoteDepo™ makes it easy to conduct a remote deposition. All you need is a stable Internet connection and your webcam. We take care of the rest. All participants receive a calendar invite with a link to join via email, including instructions to test their system prior to the deposition.

Secure and dedicated web-based conference room

Unlimited participants

Technical support for the duration of your deposition

Local and remote court reporters available

Introduce digital exhibits with drag-and-drop

Legal videographers to capture and record proceedings

Reduce costs by limiting travel expenses

State-of-the-art security including encrypted communications and HIPAA compliance

Additional Services

In addition to providing the video teleconferencing technology, here are other options to enhance your deposition:

- ⦿ For ongoing complex cases with multiple depositions, we offer InstantExhibit+™ which provides a secure online repository for continuous exhibit storage and sharing.

Realtime Text Streaming

- ⦿ See a realtime feed of the court reporter's transcript on your laptop or desktop.

On-demand access to **12,000+** offices in over **2,700** cities across the country

More than **5,000** independent court reporting professionals with specialized areas of expertise

Complex case management

State-of-the-art technical capabilities and infrastructure

Remote and local text streaming

Legal videography

Interpreting services

Client Portal with **24/7** online access to calendar, transcripts, invoices and more

“ I was dubious about video depositions, but I took two key defense witnesses this week through U.S. Legal Support's system and it worked great. I was able to drag-and-drop PDF documents right through the system in realtime - it was just like handing the documents to the witness across a table in my conference room.

All the participants, including the reporter and videographer, were in their homes. Nevertheless, I was able to get the testimony I wanted.
