- Social media research and analysis

LEGAL GRAPHICS

- 2D and 3D animations
- Illustrations and timelines
- Interactive tutorials
- Photography and videography

TRIAL TECHNOLOGY

- Trial presentation and database management
- Trial preparation (document highlights, deposition edits, video/audio clips)
- Equipment recommendations and day-of setup
- In-person and virtual trial and arbitration support services

EARLY CASE ASSESSMENT

From prefiling to the initial stages of discovery, if you need an objective opinion on your case, we can help. Our consultants will meet with the trial team to discuss key thoughts and concerns, review case documents, compare and contrast similar cases from our collective experience, and assess the strengths and vulnerabilities of your case.

FOCUS GROUPS

Focus groups enable clients to explore critical issues in the case during a facilitated discussion with mock jurors. Our methodology provides an environment in which the jurors teach the trial team from their unique and unfiltered perspective about your case and the most effective resolution of problematic issues or further development of inherent case strengths.

MOCK TRIALS

The closest thing to an actual trial, mock trials give you unparalleled insight into how a real jury reacts to arguments, witnesses, exhibits and more. Our mock trial service is a comprehensive, first-person test of multiple aspects of your case, including overall themes and storytelling, opening and closing arguments, key demonstratives and more. Coupling years of experience with insight from our proprietary juror response and measurement technology, our experienced trial consultants will provide both qualitative and quantitative analysis to help shape a persuasive strategy for your case.

JURYLIVE®

Where time and resource constraints make a mock trial impractical, JuryLive® is a great, fully virtual solution for any legal professional looking to test their opening and closing arguments, evidence and more in a mock courtroom without the expense or burden of a traditional mock trial.

CASEEXPLORER®

Want to poll a jury without a full-scale mock trial? Using CaseExplorer®, trial attorneys can poll surrogate jurors with detailed online surveys, prepared with support and guidance from an experienced jury consultant. CaseExplorer® results give a quick, precise snapshot of the strengths and vulnerabilities of every aspect of a case for a fraction of a cost of other methodologies.

SOCIALDISCOVER™

Need a more cost-effective way to research litigants, witnesses, and other subjects? Using SocialDiscover™, we scour Facebook, Twitter and Instagram and to uncover social preferences, viewpoints, political affiliations and more. We'll also conduct exhaustive research on public information sites to uncover details about bankruptcies, criminal history, past legal issues, or any publicly available data that may influence your case, and we'll put it all together into a comprehensive report.

EXTRAORDINARY RANGE OF TARGETED CAPABILITIES

In addition to the services already listed, we also offer a full suite of research, analysis, and strategy solutions to help our clients gain a winning edge.

Our services include:

- Venue Evaluation Research
- Case Consultation
- Mock Bench Trials/ Arbitration Panel Study
- Witness Evaluation and Preparation
- Damages Analysis Study
- Opening Statement Study
- Jury Selection
- Voir Dire Consulting
- Shadow Jury
- Post-Trial Analysis/Jury Interviews
- Social Media Research on Jurors

LEGAL GRAPHICS CONSULTATION

We don't just create images – we can build visual case strategies for every phase of litigation, including motion practice, hearings, important meetings and for trial. From legal animation, to illustrations, timelines, interactive tutorials, photography, videography and more. You name it, we can handle both design and creation.

SEASONED TRIAL TECHNOLOGY SPECIALISTS

Our consultants assist with every aspect of trial technology: help with pre-trial preparation, in-courtroom execution, and any/all technology needs in the "war room." Whether you need equipment recommendations and setup, on-the-fly document highlights, annotations, and side-by-side comparisons, or assistance in updating and managing a trial presentation database, our Trial Technology Specialists are well versed in state-of-the-art technology and seasoned in the demands of trial and courtroom protocol and procedure.
