depo**PRO™

## The ultimate solution for seamless and secure remote proceedings

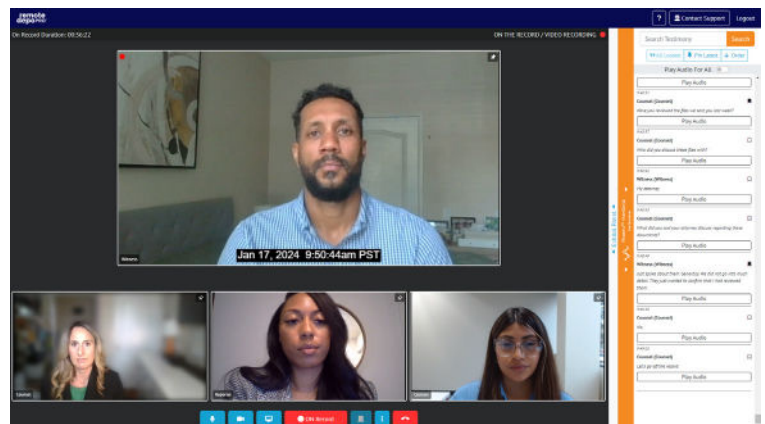

Our RemoteDepo Pro™ platform is designed specifically for legal proceedings and leverages state-of-the-art technology to provide the functionality you need for effective and flexible remote depositions, hearings, and other matters. With advanced exhibit sharing, annotation, storage and management functionality, plus high-fidelity multi-channel audio capture, everyone has the tools they need to facilitate and manage the proceeding from one central, secure location.

- High-definition video conferencing
- Live speech-to-text feed of participant audio with instant playback
- Exhibit sharing, stamping, storage, and management
- Basic exhibit annotation tools: select, draw, highlight area, format color/font/size, add basic shapes, undo/redo
- Advanced exhibit annotation tools: stamp exhibits, highlight text, direct to page, and control witness annotation permissions
- The recording (audio and video) is synced with the speech-to-text feed for review within the platform post proceeding
- Private, self-service sidebar rooms
- Rough draft and certified final transcript available upon request
- Professional legal videography and/or Proceeding Technician available upon request

## Easily follow testimony with ViewScript

RemoteDepo Pro™ includes ViewScript, a live speech-to-text feed of participant audio powered by Automated Speech Recognition (ASR) technology. ViewScript captures high-fidelity audio from each participant on individual channels, instantly translating it from speech into summary text for immediate review. You can also play back any portion of audio during the proceeding without crosstalk or interferences. The audio is synced with the speech-to-text feed, enabling parties to:

- See a live speech-to-text feed
- Play back any portion of testimony privately or for the group
- View speaker identifications and timestamps
- Bookmark segments of testimony for future reference and review
- Search for keywords or phrases
- Review the speech-to-text feed synced with the recorded audio and video within RemoteDepo Pro™ post proceeding

# Reimagined exhibit sharing and annotation

Modeled after in-person proceedings, RemoteDepo Pro™ simplifies and streamlines exhibit sharing, annotation, and stamping with elevated functionality and controls.

## ✓ EASY SHARING & ORGANIZATION

- Easily share documents with a single click
- Exhibits remain private until shared
- Direct all attendees to the same page of a shared document with one click

## ✓ UPLOAD, ANNOTATE & STAMP

- Attorneys and court reporters can upload and annotate exhibits before or during the proceeding
- Court reporters can stamp exhibits prior to, during or post proceeding
- Annotations (shapes, highlights, etc.) on all shared exhibits are preserved, saved, and available post proceeding

## ✓ EXHIBIT MANAGEMENT & SECURE STORAGE

- Case exhibits are available for future use within the platform
- View introduced exhibits from past proceedings you attended within the platform

**RemoteDepo Pro™ follows best practice security standards including end-to-end encryption and account-based authentication.**
