

# Product Liability

U.S. Legal Support has experienced teams who specialize in product liability cases to provide you with the support and resources your matters require. We offer seasoned court reporters nationwide who have vast experience with product liability cases and who are familiar with manufacturing, business, and technical terminology. When it's time to educate your jury, our designers can create illustrations, animations, and interactive exhibits to provide the background necessary for jurors to fully grasp a design or idea that will ultimately influence their decisions in a case.

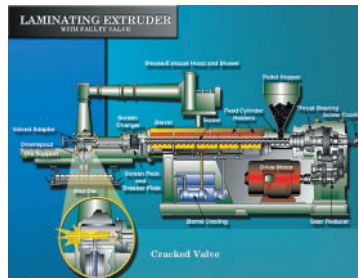

## Specialized Court Reporting for Product Liability Cases

- ✓ Court reporters familiar with manufacturing, business, and technical terminology, plus local jurisdictional rules and ordinances
- ✓ Access to **12,000+** on-demand offices in **2,700** cities
- ✓ Remote deposition platforms and hybrid solutions
- ✓ SOC 2 Type 2 and HIPAA complaint Client Portal for quick scheduling

## Product Functions Visually Demonstrated

Product liability litigation is riddled with poorly designed or improperly manufactured products. Jurors with minimal exposure to the product in question will have a very limited understanding of the expectations for its effective use. Our animations provide the background necessary for jurors to fully grasp a design or idea that will ultimately influence their decisions in a case. Before creating any product liability exhibit, the designers at TrialQuest analyze key product components to understand how the product works, paying particular attention to the purpose of the product and how it can malfunction.
