

Smarter Remote Depositions Start Here

Superior exhibit management, powerful testimony intelligence, and reliable video conferencing

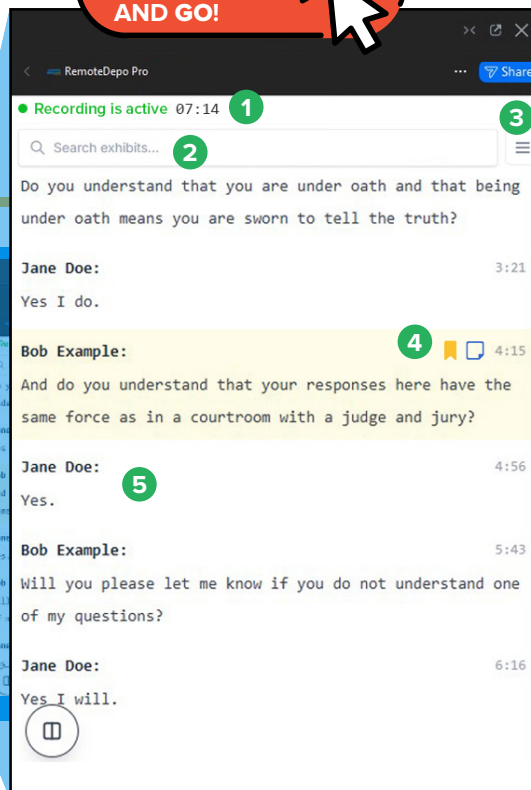

Our Zoom-based remote deposition platform unites AI-powered live testimony, exhibit management, and post-proceeding assets, helping you stay in control and drive better litigation outcomes.

- **Seamless remote deposition experience:** End-to-end handling of exhibits, recording, and testimony in one package
- **Instant access:** Testimony, exhibits, video recording, and other assets are available immediately after the proceeding
- **AI-driven clarity:** Automatic testimony chaptering and voice fingerprinting for accurate, searchable live testimony
- **Built for high-stakes litigation:** Reliable, accurate, and purpose-built for legal workflows
- **Attorney-level control:** Self-manage case access and collaboration with ease
- **Best-in-class security:** Confidential case and client data stays secure with SOC 2 Type 2 and HIPAA compliance

**LIVE TESTIMONY.
GREATER CLARITY.
COMPLETE CONTROL.**

**EASY ACCESS:
SIMPLY CLICK
AND GO!**

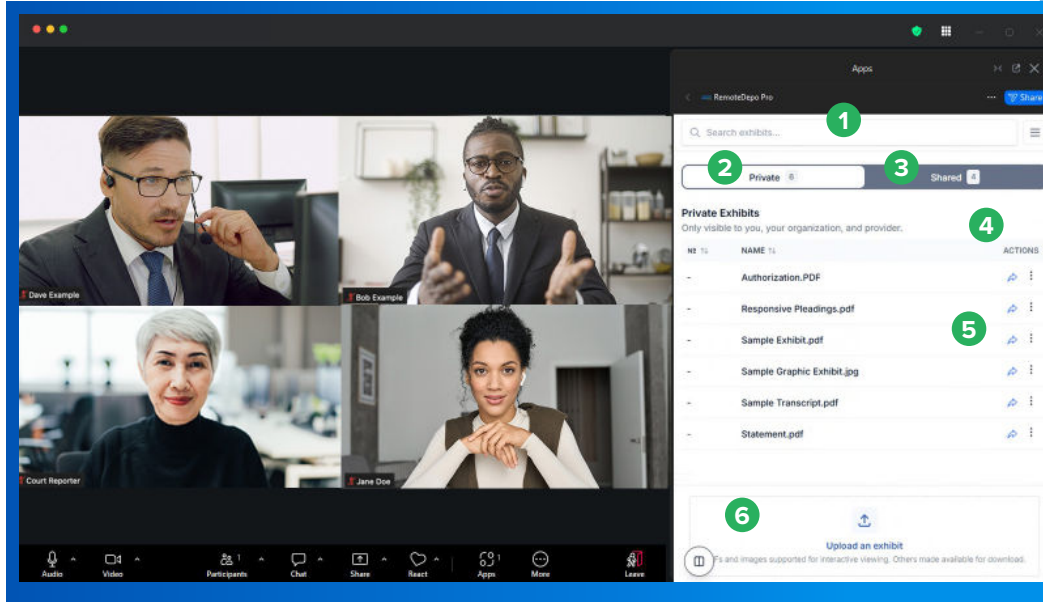

**POWERFUL
FEATURES
AT A GLANCE**

- 1 On-the-record status with duration clock
- 2 Search live testimony by keyword or phrase
- 3 Automatic chaptering organizes testimony into structured sections for efficient review
- 4 Make notes and bookmark testimony (also available post-proceeding for review)
- 5 Voice fingerprinting technology accurately distinguishes speakers, delivering clarity even when multiple participants are in the same room
- 6 Flexible screen control to view video, live testimony feed, and exhibits simultaneously — or focus on a single view as needed

THE SMARTER WAY TO HANDLE EXHIBITS

Easily manage, share, stamp, and number exhibits before, during, and after your proceedings.

COMPREHENSIVE EXHIBIT TOOLS

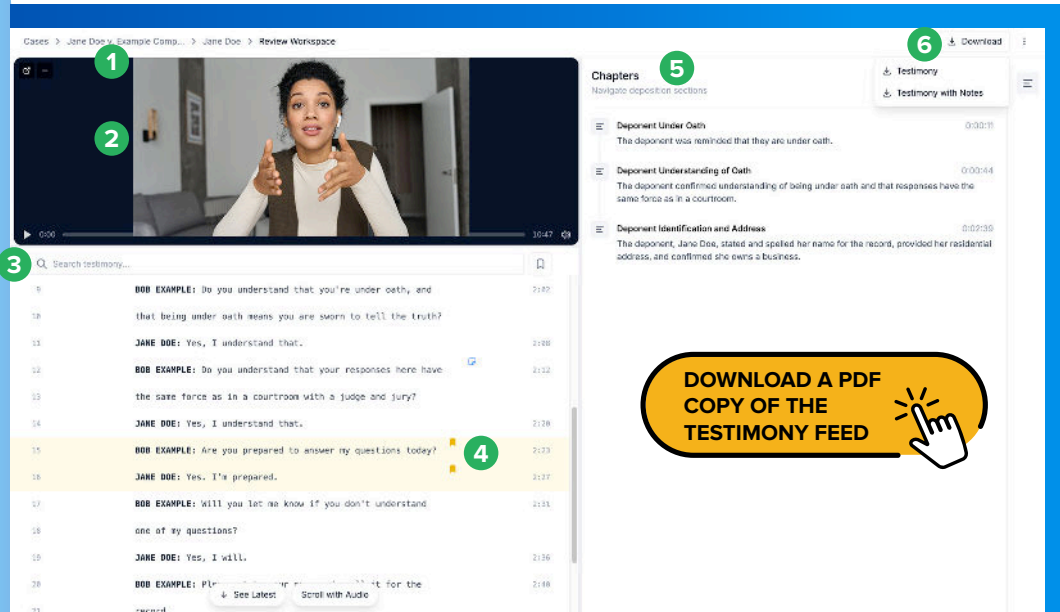

- 1 Search exhibits by keyword, deponent name, date, etc.
- 2 Private folders let you and your team organize materials collaboratively before, during, and after proceedings
- 3 Introduced exhibits are organized and accessible to all parties
- 4 Download clean or marked copies of exhibits
- 5 Each exhibit includes a complete chain of custody with date, time, and author—so you always know who introduced what, and when
- 6 Quickly and easily upload exhibits individually or in bulk

REVIEW & STRATEGIZE WITHOUT DELAY

- 1 The video recording is synced with the Testimony Feed so you can quickly review key testimony
- 2 The recording keeps the focus on whoever is speaking, providing clear visual context
- 3 Search the Testimony Feed to review what was said along with the recording
- 4 Access notes and bookmarks created during the live proceeding and add more as you review
- 5 Intelligent chaptering groups testimony into topical sections with short summaries
- 6 Download a PDF copy of the Testimony Feed, with or without notes*

POST-PROCEEDING ASSETS READY WHEN YOU ARE

Instantly access a complete, organized set of assets for each deposition, including a master exhibit list. Everything you need for review and case strategy is available immediately, in one centralized location.
